Students are facing increasing financial pressures as costs associated with tertiary education increase. In recognition of this, and to maintain and extend the University’s position as a national leader in distance and flexible learning and providing excellence in practicum and clinical based learning, Charles Sturt University (CSU) has approved the allocation of funds for 2011 for the purpose of providing equity scholarships and grants to assist students from disadvantaged groups to study at CSU. Approximately $200,000 of this will be used to assist students who are attending compulsory professional placements as part of their undergraduate course.

Student Services is responsible for the administration of the Professional Placement Equity Grants (PPEG), including guidelines, forms, promotion, applicant notification and allocation.

1.0 Definition
The term ‘professional placement’ encompasses all terms that infer authorised professional experience and development for the subject in which the student is enrolled. These terms include ‘practicum’, ‘placement’, ‘clinical placement’, ‘fieldwork placement’, ‘internship’ and ‘professional experience’.

2.0 Grant benefits
A PPEG will provide a specified amount of funds for professional placement, approximately $50 to $100 per week of placement to a maximum of a total grant of $1000.

The Professional Placement Equity Grant can only be used in the session for which it is offered. Payments can be retrospective i.e. if the application closing date for the session’s PPEG is after the placement has occurred, an application may still be submitted. Example: if the professional placement is in January of 2011 but applications for the Session 1, 2011 PPEG don’t open until March 2011, the PPEG application should still be submitted and the grant will be awarded and paid retrospectively.
