

Printer Deployment at Charles Sturt University

To install a printer that is on the network to your computer, go to the following web page

<http://isww01.csumain.csu.edu.au/printerdeployment/new/index.aspx>

You will see the following page. Using the drop down menu, select which campus you are situated

I have selected Wagga in this case

S:\Administrative\Information Technology\Customer Services Management\Education and Training Team\Current Training Modules\Printer Deployment at CSU

CSU Printer Installer

.....

To install a new printer on your computer first select a campus and then a School/Section.

Campus: - Select -

Wagga Building - Section: - Select -

This installer works with XP computers and Windows 7 operating systems.

- 013 - DIT TSS
- 013 - Library
- 013 - Student Admin
- 015 - CELT
- 015 - Jack Cross Centre
- 020 - Student Services
- 021 - VPA
- 024 Centre for Water
- 026 - Humanities
- 027 - Education Sch of

Now you need to select the building you are in. I have selected The Jack Cross Centre in this case.

Network Printers - Wagga 015 - Jack Cross Centre

 <b style="color: green;">Install	Name: Colour_Ricoh Model: Ricoh Aficio CL4000 Description: Student Colour Location: Wagga - 015 - Jack Cross Centre Email install instructions
 <b style="color: green;">Install	Name: jcc-laserjet-8000 Model: HP LaserJet 8000 Series PCL Description: Location: Wagga - 015 - Jack Cross Centre Email install instructions
 <b style="color: green;">Install	Name: mealybug Model: HP LaserJet 6MP Description: Location: Wagga - 015 - Jack Cross Centre Email install instructions
 <b style="color: green;">Install	Name: Ricoh_2027 Model: Ricoh 2027 Description: DIT CSM Location: Wagga - 015 - Jack Cross Centre Email install instructions

Click on the printer icon of the printer you wish to install on your computer.

This installer works with XP computers at CSU. It will not work with NT or Mac operating systems.

You will be presented with all the available printers that you have access to. You now need to click the picture of the printer and it will install on your computer for use.
