Other Options

1. [Student Scholarships](#)
2. [Study Overseas](#)

Student Scholarship Responsibilities

Being involved in an international study program is an amazing and fulfilling opportunity. In return, the students need to be aware that we will ask that they share this experience with others and encourage their peers to explore these life changing opportunities also! They will become an ambassador for the program!

What we ask of them:

1. Upon return from their overseas experience we ask that they [join the CSU Global Alumni](#). By registering, we will be able to provide them with access to other international opportunities and also keep them in touch with fellow CSU Global Ambassadors. We would also strongly encourage them to [become a member of AXAN: the Australian Exchange Alumni Network](#)
2. Students must choose and complete one of the following:
 - Interviewed by CSU Media.
 - Submit an article about their experience to their campus newspaper.
 - Assist the CSU Global promotional Assistant in promoting the Student Exchange Program.
 - Create a PowerPoint presentation for a 5-10 minute presentation to a lecture or tutorial group.
 - Create a pod cast or video on their exchange experience.
 - Assist the International Student Club to organise and run one activity.Students will be asked to nominate one of these activities in their Pre- Departure Session.
