

Associate Winemaker Sought

Anthony Road Wine Company, a premium New York Finger Lakes winery, is seeking an Associate Winemaker.

The candidate should have a passion for wine, be detail oriented and a team player. Responsibilities will include all aspects of wine making from harvest through bottling, from cleaning tanks to creating final blends.

We prefer the candidate to have at least three full years of hands-on cellar experience, including and not limited to crush, filter setups, record keeping and bottling line operation. Having a good sense of humor won't hurt either.

If you are interested in moving to the next level and are confident of your palate and abilities please send us your resume and references.
