

Take the

# Opportunity

of a lifetime & visit

# Pakistan

to work with CSU's Research Team on the  
**Agriculture Sector Linkages Program**

## Why?

### Research

Be involved in research in dairy science for the development of Pakistan's dairy industry

### International Links

Join Pakistani and Australian academics and students to help solve problems of a developing country

### Experience

Take in the culture, the people, the food and work experience that will be like nothing else you have experienced

## When?

Jan 27<sup>th</sup> - Feb 20<sup>th</sup>, 2010

## Who?

Any Animal Science, Veterinary Science or Agricultural Science students are welcome to apply

## How?

Send expressions of interest (including a short CV) by November 10<sup>th</sup> to David McGill - [dmcgill@csu.edu.au](mailto:dmcgill@csu.edu.au)  
Alternatively see David or Peter Wynn to discuss the opportunity. We will be in Pakistan from Oct 14 to Nov 9.

## Words from last year

"To be able to help the dairy farmers of Pakistan to achieve a greater return on their hardworking efforts was an opportunity of a life time. I was able to experience the highlights of a colourful culture, the beautiful natured people and visions of hope" **Amanda-Lee Charman, 3<sup>rd</sup> Year Veterinary Science**

"Taking the opportunity to travel to Pakistan revealed to me the power you have as an undergraduate or even just as an individual to make a change. So, however 'out there' or 'against the grain' the opportunity may be, I encourage you to consider it, because for me Pakistan was a phenomenal experience and one I will never forget"

**Shahid Khalfan 3<sup>rd</sup> Year Veterinary Science**
