The guardians of students under the age of 18 years are advised that all students at CSU are required to access the Internet for course related purposes. Accordingly all enrolled students have uncontrolled access to a wide variety of online services through University owned facilities.

Whilst there is a code of conduct for the use of University computer facilities, the University does not normally filter or censor materials which are accessible on the Internet and as a consequence requires the guardians of students under the age of 18 years to acknowledge receipt of this advice by signing below.

I give permission for the abovenamed person (who will have not attained the age of 18 at 31 March at the year of enrolment) to access the Internet.
