

Doctor of Business Administration

includes:

Doctor of Business Administration

Graduates from the Doctor of Business Administration have demonstrated a capability to produce independent research that clearly makes an original and significant scholarly contribution to business professional practice. Graduates have developed a capacity to reflect upon and solve important contemporary business problems by applying appropriate theoretical frameworks, knowledge and methods. The degree consists of one-third coursework and two-thirds research.

The course includes the following awards:

Doctor of Business Administration *DBA*

Course Study Modes and Locations

Doctor of Business Administration (2904BA)

Distance Education - Uni Wide

Availability is subject to change, please verify prior to enrolment.

Normal course duration

Doctor of Business Administration

Full-time 3.0 years (6.0 sessions)

Normal course duration is the effective period of time taken to complete a course when studied Full-time (Full-time Equivalent: FTE). Students are advised to consult the Enrolment Pattern for the actual length of study. Not all courses are offered in Full-time mode.

Admission criteria

[CSU Admission Policy](#)

Students must have completed a MBA degree or Masters Degree in Business, or hold an equivalent qualification from a recognised Australian tertiary institution, or hold an

international qualification deemed to be equivalent (as determined by NOOSR).

To gain entry to the program students will normally have achieved a credit average (or equivalent) in their MBA (or equivalent) studies as a demonstration of their capacity to undertake postgraduate work at an advanced level.

In addition to acceptable academic qualifications, an applicant for admission shall:

- have a minimum of five years of relevant business experience, and
- be working in business or have access to business such that the practical requirements of the program and the research can be undertaken.

Credit

[CSU Credit Policy](#)

No special arrangements apply

Graduation requirements

To graduate students must satisfactorily complete 192 points.

Course Structure

The course consists of the following programs:

1) DBA coursework:

Each student must successfully complete four doctoral level subjects (for a total of 64 points):

[DBA711](#)Research Issues in Business
[DBA712](#)Research Methodology for Business
[DBA713](#)Developing a Literature Review
[DBA714](#)Business Specialisation Research

and;

2) DBA Thesis

The student, under the direction of the appointed supervisors, will identify, analyse and propose solutions to current problems confronting professional practice in business through the application of knowledge, thereby improving professional practice or understanding.

The original contribution to knowledge in a DBA thesis must encompass at least one of the following:

- demonstrating specialised research skills that enhance problem identification and problem solving in management or public policy;
- extending knowledge or change processes in business or professional practice;
- developing innovative approaches to the application of knowledge to the candidate's business or profession;
- identifying relationships between research and broader knowledge within the business field.

Students will enrol in one of the following research subjects during the period of their candidature:

[DBA717](#)Thesis (Full-time) (128 Points)

[DBA718](#)Thesis (Part-time) (128 Points)
