

Master of International Education (School Leadership)

includes:

Master of International Education (School Leadership)

Master of International Education (School Leadership) graduates are critically reflective and innovative school leaders. The course enables graduates to acquire an international perspective that allows them to understand and respond to local policy and practice through a broader 'global' perspective; and to develop a set of theoretical, intellectual and methodological tools to base their professional practice and growth on well founded reading, critical enquiry and research. The course enables leaders to explore the ways that jurisdictions around the world respond to and engage with educational issues.

The course includes the following awards:

Master of International Education (School Leadership) *MIEd(SchLship)*
