

Master of Management (Information Technology) Articulated Set

includes:

Master of Management (Information Technology)
Graduate Diploma of Management (Information Technology) [Exit Point Only]
Graduate Certificate in Management (Information Technology)

The aim of the Graduate Diploma of Management (Information Technology) is to provide the IT industry with professionals who have completed an advanced course of study in information technology management that is current, relevant and integrated with industry certification in this field. This course incorporates significant components of industry training, including formal industry-stream certification by Microsoft and Cisco, as well as traditional higher education.

The Graduate Certificate in Management (Information Technology) provides skills and knowledge in the areas of contemporary management practice and professional communications. In addition, students also choose to study human resource management or marketing, as well as an industry subject in the areas of security, networking, software development or project management.

The course includes the following awards:

Graduate Certificate in Management (Information Technology) *GradCertMgt(InfoTech)*

Graduate Diploma of Management (Information Technology) *GradDipMgt(InfoTech)*

Master of Management (Information Technology) *MMgt (InfoTech)*

Master of Management (Information Technology-Information Systems Security)
MMgt(InfoTech-InfoSysSec)

Master of Management (Information Technology-Networking and Systems Administration)
MMgt(InfoTech-Net&SysAdmin)

Master of Management (Information Technology-Project Management) *MMgt(InfoTech-ProjMgt)*

Master of Management (Information Technology-Systems Development) *MMgt(InfoTech-*

SysDev)

Course Study Modes and Locations

Graduate Certificate in Management (Information Technology) (2314IT)

Distance Education - Bathurst

Master of Management (Information Technology) (2714IT)

Distance Education - Bathurst

Availability is subject to change, please verify prior to enrolment.

Normal course duration

Master of Management (Information Technology)

Full-time 1.5 years (3.0 sessions)

Graduate Diploma of Management (Information Technology) [Exit Point Only]

Full-time 1.0 years (2.0 sessions)

Graduate Certificate in Management (Information Technology)

Full-time 0.5 years (1.0 sessions)

Normal course duration is the effective period of time taken to complete a course when studied Full-time (Full-time Equivalent: FTE). Students are advised to consult the Enrolment Pattern for the actual length of study. Not all courses are offered in Full-time mode.

Admission criteria

[CSU Admission Policy](#)

Master of Management (Information Technology)

For entry to the Master of Management (Information Technology) applicants are required to have an undergraduate degree from a recognised Australian tertiary institution (or equivalent) and appropriate work experience. Applicants without a tertiary qualification may be admitted to the Graduate Certificate in Management (Information Technology) on the basis of

professional attainment and/or work experience. Upon successful completion of the Graduate Certificate, students will then be eligible for admission to the Master of Management (Information Technology) and receive credit for applicable subjects.

Graduate Certificate in Management (Information Technology)
