

Spring into EverGraze

Right Plant, Right Place, Right Purpose

“Making the best of both worlds - maximise production of hills and flats with integrated management and fill the gaps with clover”

| | |
|----------------|---|
| When | 1pm – 4pm Thursday 8th October 2009 (Afternoon tea provided) |
| Where | “Kanimbla”, Holbrook. |
| What | <ul style="list-style-type: none"> ○ EverGraze scientists Jim Virgona and Meredith Mitchell will present the latest EverGraze findings from the Holbrook and Chiltern Research Sites – an integrated approach to management of hill country native pastures and phalaris flats. ○ See how EverGraze researchers are addressing the question – is it profitable to fertilise hill country? ○ Re-filling the gaps with sub clover – results from 3 different sowing rates and direct drill vs broadcast ○ Native grass and weed ID activity. ○ Learn about how you can get involved. |
