

Viticulture Diagnostic Directory

Sampling

For specific instructions on sampling, packaging, delivery of specimens and fees please contact the relevant laboratory before collecting or sending samples.

Sending samples

Each Australian state/territory has different guidelines for cross border transport of both plant and soil material. If transporting material interstate, contact the receiving DPI prior to sending.

Phylloxera

Transport of material out of a phylloxera infested zone is restricted. Contact your local DPI for more information.

Laboratory capability

Laboratories test for some or all of the following pests and diseases. Contact the laboratory directly for more detailed information.

Plant Pathology

Botryosphaeria
Black spot (anthracnose)
Bunch rot (other)
Eutypa dieback
Petrie disease (Pch + Pal)
Phomopsis
Phytophthora root rot
Root rot (other)
Verticillium wilt
Botrytis bunch rot
Downy mildew
Powdery mildew
Crown gall
Other fungi/bacteria

Entomology

Garden weevil
Trunk boring insects
Mealybugs
Other moths or grubs
Phylloxera
Scale
Bud mite
Bunch mite
Other insects/mites

Virology

Fanleaf virus
Grapevine yellows
Leafroll virus
Other virus/transmissible organisms

Nematology

Root-knot nematode
Other nematode
