

## Expressions of Interest Sought for Dentistry Partnerships

Dear Colleague

You may be aware that the Federal Government last year funded the establishment of the new School of Dentistry and Health Sciences at Charles Sturt University with its first intake of dentistry and oral health students planned for 2009. If you have not received prior notification of the School I invite you to visit the website <http://www.csu.edu.au/student/dentistry/> and I have also attached some of our past newsletters for your information.

The new School is seeking to develop strong collaborative relationships with a variety of areas of the dentistry profession. These include:

- Local general dental practitioners who may wish to relocate their current clinical practice to within the new University Clinics;
- Specialists who may wish to carry out patient care within the University Clinic(s), and;
- Dental laboratory, prosthetics and technician services within the University Clinics and laboratory.

We would like to invite any expressions of interest or ideas on potential collaborative interaction from all interested parties by seeking the proposal documentation from the Dentistry Project Office, Ms Judy Stone ([jstone@csu.edu.au](mailto:jstone@csu.edu.au) – 02 6365 7883). It is expected that closure of initial expressions of interest will occur 31 March 2008.

I would be happy to discuss any queries you may have in relation to partnerships and answer any questions you may have about the dentistry development.

Regards

Professor Mark Burton  
Director, Dentistry (Implementation)  
Charles Sturt University  
Leeds Parade  
Orange NSW 2800
